Re: Closure of Container Storage  
Johnson Controls, Inc.  
Goshen, Indiana  
IND 009549593

Dear Mr. Heck:

The Indiana Department of Environmental Management (IDEM) received your January 17, 1990, response to our December 13, 1989, Notice of Deficiency. Staff has reviewed the closure plan for completeness and determined it to be inadequate pursuant to 329 IAC 3-21-3.

It has been noted that your facility states that the hazardous waste management units were taken out of service in 1980. As stated in our January 17, 1989, letter to John G. Fecteau you must either document and certify that your three (3) hazardous waste management units were not used to store hazardous wastes after November 19, 1980, or submit a closure plan to close each unit.

In order to avoid further misunderstandings it is recommended that you meet with IDEM staff as soon as possible to discuss the items in question. Please contact Mr. Mitch Mosier at AC 317/232-3221 to arrange such a meeting. Thank you for your cooperation in this matter.

Very truly yours,

*Jayne E. Browning* for

Victor P. Windle, Chief  
Plan Review and Permit Section  
Hazardous Waste Management Branch  
Solid and Hazardous Waste Management

MJM/go
